Basic inventory list Rebslagervej room 14 (ground floor)

Since Danish tenants normally move into rooms without any loose furniture/equipment; the Housing Foundation Copenhagen has provided some basic items for each room that we allocate students to.

The purpose is to assist the international student with the problem of arriving to an empty room, having to immediately go purchase furniture, and equipment – only to have to sell everything again upon departure. However, our basic equipment may not always cover everything that you personally desire and some may want to supplement the equipment yourself (especially items to make it cozy or if you have specialized needs).

The basic equipment belongs to the Housing Foundation Copenhagen and must remain in the room regardless of whether or not you make use of it yourself. **They may also not be left in the common room or study rooms to avoid their disappearance. If the items are missing during inspection (after you have moved out), then you must pay for the costs of replacement.** The provided items can be older/used but should not be broken. You pay a minor amount a month to cover wear and tear – but any damages which occur during your stay will be deducted from your deposit. If any items are missing or damaged (not just worn) upon moving in, please report it in your online Flow.

Please note that previous tenants may have left additional items behind in your personal room – these items are not part of the basic equipment and are not serviced. Such items can be disposed of by the student in the designated area for larger garbage.

The below are the items which we have provided and therefore offer service for.

- 1 futon bed 120x200 cm (can be used as a sofa, or as a bed)
- 1 box spring bed 90x200 cm (*the bed is located on the loft in these rooms*)
- ***(see note on 2nd page)** 1 black table 80x120cm (dining table)
- 2 dining chairs
- 1 ceiling lamp (hanging above dining table)
- 1 standing/floor lamp
- 1 desk lamp
- 1 bulletin board
- 1 wardrobe
- 1 coatrack (black steel with round mirror, mounted on the wall)
- 1 shoe rack (white plastic – mounted on the wall)
- 1 shelf with 2 drawers (mounted on the wall)

1 50x70 cm poster
2 curtains (140x245cm)

The purpose is to assist the international student with the problem of arriving to an empty room, having to immediately go purchase furniture, and equipment – only to have to sell everything again upon departure. However, our basic equipment may not always cover everything that you personally desire and some may want to supplement the equipment yourself (especially items to make it cozy or if you have specialized needs).

The basic equipment belongs to the Housing Foundation Copenhagen and must remain in the room regardless of whether or not you make use of it yourself. **They may also not be left in the common room or study rooms to avoid their disappearance. If the items are missing during inspection (after you have moved out), then you must pay for the costs of replacement.** The provided items can be older/used but should not be broken. You pay a minor amount a month to cover wear and tear – but any damages which occur during your stay will be deducted from your deposit. If any items are missing or damaged (not just worn) upon moving in, please report it in your online Flow.

Please note that previous tenants may have left additional items behind in your personal room – these items are not part of the basic equipment and are not serviced. Such items can be disposed of by the student in the designated area for larger garbage.

The below are the items which we have provided and therefore offer service for.
