

## Inventory list Rævegade apartments

Since Danish tenants normally move into apartments without any loose furniture/equipment; the Housing Foundation Copenhagen has provided some basic items for each apartment and studio that we rent out.

The purpose is to assist you with the problem of arriving to an empty apartment, having to immediately go purchase furniture, and equipment – only to have to sell everything again upon departure. However, our basic equipment may not always cover everything that you personally desire and some may want to supplement the equipment yourself (especially items to make it extra cozy or if you have specialized needs, e.g. a children's bed/crib).

The basic equipment belongs to The Housing Foundation Copenhagen and must remain in the room regardless of whether or not you make use of it yourself. **They may also not be left in the common room or study rooms to avoid their disappearance. If the items are missing during inspection (after you have moved out), then you must pay for the costs of replacement.** The provided items can be older/used but should not be broken. You pay a minor amount a month to cover wear and tear – but any damages which occur during your stay will be deducted from your deposit. If any items are missing or damaged (not just worn) upon moving in, please report it in your online Flow.

Please note that previous tenants may have left additional items behind in your personal room – these items are not part of the basic equipment and are not serviced. Such items can be disposed of by the student in the designated area for larger garbage.

The below are the items which we have provided and therefore offer service for.

Blinds  
Ceiling lamps  
1-2 floor lamp(s)  
1 sofa bed (for 2 people to sleep on)  
1 desk  
1 desk chair  
1 desk lamp  
1 bookcase  
1 closet  
1 dining table  
4 dining chairs

### **Other:**

**1 shower curtain** (180 x 200 cm: it is important to have the RIGHT SIZE, so no water damage is caused to the bathroom door - we provide the shower curtain for free)

1 vacuum cleaner

**1 dish rack** – it is important that you have the tray underneath to avoid water

damage

**“Usables”**

Also note that The Housing Foundation Copenhagen does not exchange your “usables”. You buy and exchange your own light bulbs, batteries for smoke alarm, vacuum cleaner bags etc. You are expected to check if this needs replacement before reporting an item damaged.
